VALUE NEVER LOOKED SO GOOD.

# AEGIS-08

SERIES

Aegis-LB lobby phone.

Aegis-08 Series is the Scitec third generation design update of its popular Aegis® product line. Aegis-08 single and two-line speaker and non-speakerphone models are available with options for 0, 3, 5, or 10 programmable guest service keys, and patented OneTouch® message retrieval designed to keep guest connected with a single touch of the blinking lightbar.

Aegis-LBE emergency phone

# 2500

SERIES

Scitec brand industry standard 2500 Series analog hotel phones are designed to operate in the most demanding hotel work environments. In the guest room, back office, hallways, elevators, physical training or poolside locations, Scitec standard desk, wall, and trimline telephones are on the job.

2510D with message waiting light

2554 black, and 2554E red emergency wall sets

# THE SCITEC BRAND

*VALUE NEVER LOOKED SO GOOD.*

Scitec brand telephones catapulted to early success throughout the late 1990s as the low-cost hotel phones of choice. Today, Scitec brand telephones continue to be preferred by economy and mid-scale hoteliers for their durability, performance, and value price points. Choose Scitec economy hotel phones for all of your guest room, lobby, and general property requirements.
